

## DENTAL MENTOR (EBCAP0295)

East Bay Community Action Program, a private, non-profit 501(C) 3 organization providing a wide array of health and human services to some of the region's most vulnerable clients, is redesigning its dental practice located in beautiful Newport, RI, and is looking for an experienced dentist to act as a MENTOR.

Are you a RI licensed dentist who enjoys a deep sense of community involvement, a strong desire to promote sound dental practices, and remember what it was like to be "out on your own" with no one to provide that much-needed support, challenge, consultation, or just plain listening from time to time? If you excel at being that confidence-building coach, then you are the person we are looking to engage.

The position encompasses about five hours per week with the flexibility to provide oversight in person, phone, email, and Skype (conference call). Services to be observed and reviewed will include initial and recall exams, restorations, and extractions; conducting chart audits; and providing feedback to our staff regarding findings. Our goal is to ensure that our dentists and dental support team thrive, adhere to RIDOH and ADA standards of excellence, and provide outstanding clinical care to our patients.

The MENTOR must have RI licensure. In addition, he/she should have experience with electronic dental records, Healthcare provider CPR certification, possess DEA registration/RI Controlled Substance Certification, and the ability to conduct periodic community travel.
